THE GAZETTE.

WEDNESDAY, JUNE 16.

State is the Gladstone of America in his power to make the world pay attention to what he says.

There is an end of the drought, so far as the crops are concerned. But the democratic party is as dry as ever.

Reform, as labelled by the demo racy, is a very curious article. It is to honest reform what oceano-purism is to butter.

A writer down east is at work trying to show how political grants are made. But they don't seem to be made at all in these days.

The democrats of the house of representatives have done a little that is creditable, that the democratic will have to cease pointing with pride and begin viewing with alarm, for some time to come."

There does not seem to be any sort of a uniformity in the price of aldermen. In New York an alderman sells himself for \$20,000; in Chicago for \$1,000; but in St. Louis an alderman thinks he has struck a bonanza if he can get \$500.

By a singular combination of circumstances, the persons who, under the civil service rules, get positions are democrats. And they don't come out best in competitive examinations, either. When it comes to devising plans by which to get offices, the democratic leaders are quite ingenuous.

The secretary of state has drawn a warrant of the state treasury for \$500,000, that being the school fund income, including the 1-mill school tax levied last fall for the fiscal year 1888. It was the largest warrant ever drawn on the treasury, and the money has all been apportioned among the counties in proportion to the school population, for educational purposes.

Says the Philadelphia Record, "When democratic office-holders in the excess of party zeal violate the letter and spirit of the civil-service laws, the attention of the administration should be called to them." This ramifies one of the paradoxes of the power. The democrats bear but take no heed. You might as well talk to an adler as to talk to the administration about the violation of the civil service rules.

Of the 400 senators, members and territorial delegates who compose congress, seventy-two are Methodists, sixty-three Baptists, forty-one Episcopalians, thirty-four Presbyterians, thirty-six Catholics, fifteen Unitarians, eight Lutherans, four Christians (Campbellites) and two Quakers, making a total of 282 who are actively connected with some church organization. This leaves 125 who either never belonged to any church or have drifted out of said associations.

The following gentlemen have been elected officers of the State Bar association: President, Elmer M. Strong; vice presidents, John L. Wadsworth, Samuel Howard, Charles W. Felker, W. H. Seaman, M. M. Cothren, Thomas B. Tyler, W. C. Silverthorn, W. P. Bartlett, J. J. Guppy, H. W. Teuney, G. D. Tullaghast, P. Norcross, Ed. Hartbar, Thomas L. Hudd, secretary, Edward P. Vilas; treasurer, J. H. Carpenter; executive committee, N. W. Wheeler, John W. Cary, A. A. Jackson, G. C. Proutis, J. O. Hayes, S. J. Flinney, M. Griffin, J. V. Quarles, W. E. Carter.

Very often one will meet with a mugwump paper which is disgusted with the democratic attacks on the civil service law. That mugwump of all mugwumps, the New York Times, lauds the democratic leaders in this fashion: "There is something indescribably stupid in the action of political leaders like Randall and Holman, and political representatives such as the followers of these men in the house, in their bitter attacks upon civil service reform. Any glimmer of real political sense would show them that they are injuring their party and themselves. * * If Randall and his followers were not blind as moles they would perceive that Mr. Manning's idea of politics and the reform is the sound and safe and practical one, and that their own is ruinous to their party and to whoever may depend upon the party for future advancement. Their conduct in the matter is suicidal. They are working with all their might to prove to the country, so far as they can, that their party cannot be trusted, that it regards pledges as only 'good enough till after election,' that it has no conception of the work it has been called on to do, and that all that its opponents have charged as to its greed, its corruption, its folly, ignorance, incapacity, and blindness fails far short of the reality." It will be seen from this that the mugwumps don't agree. What the New York Times calls sham reform the Harper's Weekly pens as honest reform.

The sun is covered with spots at times, and to this scientists attribute the tornadoes and severe thunder storms which have often occurred in this country as well as in some parts of Europe. During the past fifteen years the subject of sun spots and the weather has been discussed by men of reputation, in astronomy and meteorology, and they have come to the conclusion that the sun spots largely affect the weather. One writer says that "the imperfect manner in which observations of solar storms have been conducted, the undue haste of enthusiasts in interpreting the phenomena actually observed, the apparent conflicts in the evidence actually secured, the intricacy and novelty of some of the problems which it raises, and other circumstances have combined to prevent a final deter-

mination of the truth or falsity of the theory as yet. But continued attention to the possibility in question, led a number of men independently of each other, to notice striking coincidences between solar and terrestrial disturbances, similar to those just mentioned. Dozens of tornadoes, scores of thunder and hail storms, and several cloud-bursts, for instance, have occurred in the United States and Europe within the last three months, inside of two or three days after the appearance of violent commotion in the sun's gaseous envelope; and the three greatest storms and cold waves of last winter in this country followed close upon similar solar phenomena. These two facts are quite inadequate to prove any theory, but they challenge consideration and justify a careful treatment of the sun spots until the matter has been more closely studied."

BOSTON FEELS BADLY.

HER DEMURE LITTLE PURITAN DISAPPOINTS MANY ADMIRERS,

And These Who Put Their Stock in Her Keeping Mourn with Much Melancholy—For the Saucy Priscilla of Gotham Shows a Clean Pair of Heels.

New York, June 16.—The opening fight for supremacy among the showboats began Tuesday and ended in a manner which can not but have a depressing effect on some Boston folks, not to speak of the young sportsmen in the vicinity. The opening of the Atlantic and the Boston vicinage a year ago, but even as late as Tuesday evening refused to put out their major of Casa Castilla's iron shop. Priscilla, even at the odds of four to one. At break of day the sky was not indicative of much hope, but the wind rose with the sun, and by 9 o'clock the bay and two rivers were dotted with whitecaps.

Approaching the fact the scene was indeed a sorry one. Nearly seventy sail, mostly of high and low degree, were about the action, and anchor, but most of them bearing round and lying off and on as though eager for the contest. The crest of the Bay Ridge hills and all along the shore road to men Port Hamilton was crowded with spectators. The three crack sloops beat hither and thither across the bay, their white wings sailing out in silhouettes against the leaden sky.

It was 10:30 when the gun for the start was fired. The wind blew steadily from the northeast, and right through the smoke of the big gun, and while its echoes were still echoing through the hills, the Puritan went over the line and ran up her big balloon jib, all the time running out her spinnaker. At 10:42 the Priscilla came up with the Castilla, and the two were abreast. As she went over a marine manouver was performed which was worthy of the veterans Joe. Everybody wondered why her balloon jib and spinnaker were taut with little gusts instead of fluttering free as the line was rung out. The wind was strong, but the sun was the yacht outlasted the wind.

At 10:42 the Priscilla was leading, and the Castilla was taut with a marine manouver was performed which was worthy of the veterans Joe. Everybody wondered why her balloon jib and spinnaker were taut with little gusts instead of fluttering free as the line was rung out. The wind was strong, but the sun was the yacht outlasted the wind.

It was 10:30 when the gun for the start was fired. VANCOUVER IN ASHES.

THE TOWN LAID WASTE BY THE FIERY DESTROYER.

Many of the inhabitants lost their lives and a number of charred remains found—A Saturday in the Middle of Destruction—The French People flee in All Directions.

Vancouver, B. C., June 16.—Further details of the fire at Vancouver show that the little town has been almost entirely wiped out of existence. For several days past there have been brush-clearing fires along the track of the Canadian Pacific, and on Sunday a strong east wind had been blowing, which filled the town with a dense smoke. Shortly after 1 p. m. Monday the fire began to be felt, and a general alarm was given that the town was to be destroyed.

—Young people from this village and the Junction enjoyed a picnic at the Lake for hours. The prairie was covered with a dense growth of grass, and the wind was blowing hard, but the smoke was so dense that many still thought it was still safe to go on.

Dr. BIGGER'S
BUCKLEBERRY

The Great Southern Remedy for all
BOWEL TROUBLES and CHILDREN'S TEETHING.

These are very few who do not know of this
little bush growing alongside of our mountain
streams, and bearing the little purple berry, which so many of us
have eaten, and which has given us so much pleasure.

It is having a wonderful effect on the bodies

of the little ones, tooth-ache and cure.

For babies, Dr. BIGGER'S Buckleberry Cordial is

the great remedy for all the ills of childhood.

It is a great Southern Remedy.

THE GAZETTE.

WEDNESDAY JUNE 16.

LOCAL MATTERS.

Now brick and Swiss cheese at Chase's.

Fresh oysters at the Sea Side.

Cigars by the box a specialty, at Chase's.

All the luxuries of the season at Jones' East Milwaukee street.

Fresh oysters at the Sea Side.

15 pounds Standard Granulated Sugar for \$1 at BRACE & BROWN.

There are sure indications of a boom in city property. I buy some choice bargains that those intending to buy should inspect at once.

C. E. BOWLES.

The best bread in the world at Jones', five cents per loaf. Fresh every day.

JOHN G. REINHOLD.

BREEDERS.

Attend the horticultural fair at Apollo hall.

Don't fail to attend the horticultural fair at Apollo hall.

Martial Hogan took in one drink this morning.

Notice the announcement of the A. O. U. W. committee on Madison excursion to-morrow.

—Wisconsin Lodge No. 13, I. O. O. F., occupy Odd Fellows hall this evening—regular weekly meeting.

—A number of Jansenville Odd Fellows, with their Rebbecca's, are at Clear Lake to-day attending the picnic of the Milton Lodge.

—Mr. J. B. Addy has purchased land in the first ward and is making preparations to have a handsome dwelling erected.

—The members of the Farnell Land League and their friends will pic-nic tomorrow at Wheeler's Grove, third ward.

Good music and entertainment for all.

—City Engineer Edward Roger is at work to-day setting the stakes for the grade of the Jansenville street railway on West Milwaukee and Academy streets.

—Ald. Rooney says that he was and is in favor of laying the street car track in the center of the Milwaukee street bridge, but stated with the other members of the committee to make the report unanimous.

—About forty of the pupils attending the Wisconsin School for the Blind, left for their home in different parts of the state to-day, to spend the summer vacation. The next term of school begins Wednesday, September 8th.

—The highway, street and bridge committee, and street commissioner, have completed the re-planking of the north half of the Pleasant street bridge, and are now engaged in re-planking the south side.

—Mr. P. L. Myers informed a reporter for the Gazette this afternoon that no companies would appear in Myers opera house until September. The house is to be closed for repairs, which will commence, as Mr. Myers says, about the 18th.

—A grasshopper sat on a sweet potato vine serenely gazing at a fat potato bug, and seemed much surprised when the bug rolled off on the ground, gasped, and expired. Slug shot was the cause of his sudden demise. Try it at Walter Helms.

—Commencing next Saturday, the short time limited for St. Paul and Minneapolis, north bound, will stop at Ation and make connection with short train for Jansenville. This will enable passengers to leave Chicago at 7:30 p. m. and arrive at Jansenville at 10:15.

—The funeral of James Horn, brother of Mr. Levi Horn, of this city, was held at St. Patrick's church this morning. There was a large assemblage of relatives and friends for the deceased was very popular in this city and his death has caused much sorrow. After the services the remains were taken to St. Patrick's cemetery the pall bearers being Dennis Flugan, Edward Smith, Frank Welsh, W. Burrell, John Roberts and John Crowley.

—Mr. and Mrs. George M. McKay entertained a pleasant party of ladies yesterday afternoon and ladies and gentlemen in the evening. The afternoon party was in honor of the birthday anniversary of Mrs. Douglas, of Lockport. N. Y. mother of Mrs. McKey, and the evening the fifth anniversary of the marriage of Mr. and Mrs. McKey. The party was a most happy gathering of friends, and the entertainment of the guests, by Mr. and Mrs. McKey was the most complete in all details.

—The rain yesterday morning frightened away many who would otherwise have attended the picnic held by the Crystal Temple of Honor and the Independent Order of Good Templars. Even as it was a very fair number took advantage of the opportunity for a boat ride and a day spent among the trees, and all who went enjoyed themselves thoroughly. In the evening there was dancing to the music of Anderson's orchestra, while the old house was in itself worth taking considerable trouble to enjoy.

—Mr. J. C. Murray, the contractor for building the street railway line in this city, has just completed the railway line at Lansing, Michigan. He informed the Gazette, this morning, that the material for the road would be distributed along the streets to-morrow; that he had sent to Lansing for his tools, and track laying would be commenced on Saturday morning, commencing at the Myers house, thence to the cemetery, crossing the railway track on Academy street. The other division of the street line will be substantially as published in the Gazette a few days ago. He does not expect to have the cars running by the fourth of July, but very soon thereafter.

—Mr. C. H. Thompson, the contractor for building the street railway line in this city, has just completed the railway line at Lansing, Michigan. He informed the Gazette, this morning, that the material for the road would be distributed along the streets to-morrow; that he had sent to Lansing for his tools, and track laying would be commenced on Saturday morning, commencing at the Myers house, thence to the cemetery, crossing the railway track on Academy street.
